DETAILED ACTION

Drawings

The drawings were received on August 4, 2003. These drawings are objected to.

New corrected drawings are required in this application because the colors depicted in the substitute drawings submitted August 4, 2003 do not match the color chart colors set forth in the specification for the plant parts illustrated in the drawings. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Rejection

35 U.S.C. § 112, 1st Paragraph

Claim 1 is rejected under 35 U.S.C. 112, first paragraph for the reasons advanced in the objection to the objection to the drawings.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 1661

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Comments

Attached to this Office Action is a Requirement for Information Under 37 CFR § 1.105. The period for reply to the Rule 1.105 requirement is the same as the period for reply to the Office Action. On August 4, 2003, in response to the Examiner's first Requirement for Information, mailed September 19, 2002, applicant stated "the variety 'Corso' has not been commercialized or publicly used anywhere in the world." However, the claimed plant, 'Corso' was offered for sale prior to applicant's response, in the Spring 2003 catalog of BD Lillies (see <http://www.bdlillies.com/spr03intro.html>), and is available for purchase as of the date of this Office Action (see <http://www.lilybulb.com/17413.html>).

These references are *prima facie* evidence that applicant's response to the previous Requirement for Information is incorrect and cannot be relied upon in a determination of patentability. Applicant is reminded that the publications cited in the Office Action mailed September 19, 2002 would constitute 102(b) prior art if the claimed plant was publicly available or sold anywhere in the world more than one year prior to the date of the instant application for patent.

Requirement for Information Under Rule 1.105

Applicant and the assignee of this application are required under 37 CFR 1.105 to provide the following information that the examiner has determined is reasonably necessary to the examination of this application. This information is needed to determine when the claimed plant, 'Corso' became publicly available.

- (1) The first date of public availability of the claimed plant anywhere in the world.
- (2) The location where the claimed plant was first publicly available.
- (3) The manner in which or person(s) to whom the claimed plant was first made publicly available.
- (4) The first date of sale of the claimed plant anywhere in the world.
- (5) The location of first sale of the claimed plant anywhere in the world.
- (6) The first date of sale of the claimed plant in the United States, including sale by the inventor to growers and wholesalers.

The fee and certification requirements of 37 CFR 1.97 are waived for those documents submitted in reply to this requirement. This waiver extends only to those documents within the scope of this requirement under 37 CFR 1.105 that are included in the applicant's first complete communication responding to this requirement. Any supplemental replies subsequent to the first communication responding to this requirement and any information disclosures beyond the scope

Art Unit: 1661

of this requirement under 37 CFR 1.105 are subject to the fee and certification requirements of 37 CFR 1.97.

The applicant is reminded that the reply to this requirement must be made with candor and good faith under 37 CFR 1.56. Where the applicant does not have or cannot readily obtain an item of required information, a statement that the item is unknown or cannot be readily obtained will be accepted as a complete reply to the requirement for that item.

This requirement is an attachment of the enclosed Office action. A complete reply to the enclosed Office action must include a complete reply to this requirement. The time period for reply to this requirement coincides with the time period for reply to the enclosed Office action.
